L. M. Moore's Rochester 7mo. 28. 1st day

After passing through times of deep discouragement, I find myself not slain - but alive to a little blessed hope - The week has been one of great & varied exercise of mind rendered the more difficult by a contracted measure of indisposition - & some anxious thoughts & feelings as to my bodily capacity for getting thro the work before me. Last 1st day at Farmington, a memorable time - two large overflowing meetings - the afternoon from presence of the multitude, held in the Hicksite House
