new birth, the resurrection of the spiritual body, & the great day of judgment are simply stated with exhortation to peace, quietness &c. I have left it for the judgment of the Com. of the Yearly Meeting: & feel peace in having taken the step, though I think it likely it may expose me to some rebuke. We set off after an early breakfast yesterday; & were favoured with a comfortable journey of 43 miles to this place - Wm. Hancock and who has a good pair of horses - his a truly worthy friend, is now my companion for Carolina: & I have bought one of the carriages of the Country (a considerable improvement on our market cart) for 130 dollars. This I am provided for exactly to my heart's content; & my dear young friend Charles Moore who has quit fat on his plain coat, accompanies us as a companion. I trust I feel very grateful for the Lord's abounding & unmerited loving kindness.

Sixth day night 10th mo/ 20 Gallipolis on the Ohio - The week has been one fraught with lively interest - meetings at Springborough, Wainsville, Center (very large) Lebanon, Fairfield, Greenfield, Jacob Chillicothe, Jackson, & finally at this place this evening, greatly to my relief - My dear friend Josh Hatton & his wife, & Sarah Nixon have joined our party -

My mind has undergone a good deal of conflict but is much at peace after this evening's meeting - the close of my labors at present on the Western side of the Ohio. They have been numerous & arduous - but the Lord has been wonderfully condescending & gracious to me; & most abundant the cause for thankfulness have I for the help so abundantly vouchsafed in the needful hour. Seven weeks to morrow since my arrival at Mount Pleasant! We expect to cross the Ohio into Virginia to morrow morning. May my gracious Lord & Master favour us with to pass over in perfect safety both of body & soul, if it be well pleasing in his sight!

Rodgers's Tavern 15th 9th mo. on the Virginia Shore.

Since the last entry - I have witnessed abundance of natural beauty, encountered a good deal of difficult travelling - the journey from Gallipolis to Charleston was often usually difficult - & I was in consequence much exercised in mind respecting a meeting there - it was wonderful to my feelings that all ended well - though we did not reach the place till the evening, the house was rapidly filled - the people as rapidly collected - & we had a capital meeting to my very great relief. Thus our four, Indian, Sabbath was quite end crowned with peace. Sec.d & 3.d days of this week have been spent in slow travelling chiefly by the banks of the Kanawha; most delightful scenery - the Hawk's nest wonderful - & upon some devotional feeling was tenderly exercised.
