Baltimore 2mo/2d First day morng

My work here has been arduous & I hope is now done. Wm & I have gone through the families, in much feeling of poverty & humiliation - upwards of 60 visits. The meetings have all been rather memorable. In the morng There was fast day at our meeting this, at the Methodist house after, & at Baptist house in the evening - fearfully so. - Large meeting of closed people on 4th day Eve - & yesterday meeting at the Jail & Penitentiary (our usual week day meeting very reviving -) & to include, a public meeting last eve in another large house - very weighty & solemn - instructfully so to me - baptism into the name of the Father, the Son & the Holy Ghost - my 5th public meeting in this place. I hope that considerable impression has been made on some of the Hucksters - & the time standing of Friends has been cleared & vindicated. Some of the Friends here are very precious - & we gathered into a very sweet parting solemnity last evening. I believe I leave the place in a good degree of cloudless peace. Blessed be the name of my God & Father!

On a general review of those interesting five months, I have abundant cause for humble gratitude to the Author of all good. I have been most graciously led along & protected; & am not aware that I could in any material respect have done better by shaping my course differently. First day morng 2mo/4.

Select Qu. meeting yesterday morng - hopeful & quietly & well - various calls & interviews with Friends in the afternoon part of the day - A long one with my dear friend Saml Bettle yesterday after replacing my books, unpublished tracts, Friends' memorials &c. - kindly intended to prepare me for conflict & imprisonment - I have felt it a good deal during the night; but I think my chief anxiety is, that the Society, & above
