Since the last entry, I have been chiefly at Rob. Wistar's engaged in finishing the Western family visit - also attending in succession the Northern, and Western & Arch St. Mo. meetings & delivering in the report of my visits. The elders bore strong testimony in favor of them visit - & the respective meetings were favored with great solemnity. Visit to the widows' asylum. returned to S. Paul's on 6th day night. finished yesterday morning. On the whole love & peace at have abounded - & I leave Phil: with an easy & clear conscience - Great is the love of many towards me; but with the last, the little offering party is, to all appearance, unnamed. I felt low felt quite at ease in having avoided further dealings with Orange St. - Whether my way will ever open to a visit among the families there, seems doubtful. Hymenaeuses & Philetuses there are certainly in Phil: & I have been tried a good deal lately turning against me of a friend that I valued - but let me remember that the Saviour was forsaken, & passed through all these things before me - May I not believe that He is touched with a feeling of my sorrows

A most precious letter from dear Sth, has been one of very comfort, & the Lord keep & help me & my children! May we dwell in the very truth - in the very anointing!

S Paul's 7th day Eve. 5mo 5th 1838.
