of the province – the meeting was satisfactory – we then proceeded about 20 miles to Bedford, St. Pabo's – where we held an excellent public meeting in the Eve. 20 miles more of travelling has brought us hither – where I have been quietly engaged in writing the necessary letters to the authorities of Quebec – & we have appointed a meeting for the evening. Small showers & much rain seem likely to prostrate the spirit – but I must endeavour to hope for the best – & to cast all my care upon my dear Lord & Master – He has been with me hitherto – & may He be pleased to continue his gracious & holy help, in this time of continued need!

Montreal Tenth day 10mo/14

Notwithstanding the discouragements above-mentioned we had a pretty large & very refreshing meeting on 5th day Evening at St. Johns – & "I have fought a good fight" – several soldiers being present – & a pleasant journey hither on 6th day morning. Our friends H. Miller Chs Pabor & Nathan Purington went off by boat to Quebec on their mission – I made several calls & read my letters entering a good acct.

of my home – & held a good the very small meeting in the Wesleyan house – in the dark west End – On 7th day, I was much occupied & exercised during the day in again writing to Hall & the Gov.r General – we dined at Mr Lunn's & a conflicting night followed – How noisy was the hotel! I have however abundant cause for thankfulness in the help which has been afforded me in a public meeting this morning at the Wesleyan ~~Church~~ Chapel – a promiscuous & most attentive assembly. "Ye are the salt of the earth &c"

On board Burlington Steamer
Lake Champlain 10mo 15th 1840

The meeting yesterday morning was certainly a very weighty one, & in its result greatly to my relief. In the afternoon we were occupied by an affecting visit to the United Prison – an interview with 33 good looking soldiers sentenced to transportation for desertion was to me satisfactory. Then a visit to Thaddeus Osgood's Bethel for seamen & Sabbath school where a solemn little meeting was also held – & in the evening, a very favoured meeting in the Congregational house – so that I trust a blessing rested on the day. I was visited in the night with very grave considerations whether I might not to go forward
