not meeting, there was much of the weight of a yearly meeting over the whole affair. The meeting for worship on 5th day a good one – & the conclusion Sat day morg very solemn. Throughout, the ministry was in harmony – though some might have supposed that the materials were not quite accordant – I went into the women's meeting which was considerably larger than the men's & the occasion was one of great solemnity – Jos Meader held a good meeting one evg with the Coloured people – & I had to instruct & encourage some large circles of young people – a service in which I was graciously helped – My mind being brought into much concern towards the Hicksite community, I proposed holding a public meeting in the meeting house which they occupy on 1st day morg – but it was declined – A pleasant afn at on 6th day at Jos & Mrs Tyson's – on 7th day dined at Mr Chorlton's – the evening at Ann Pountney's – First day, most rainy – the morning meeting thin, but much favoured – the mismanagement of Hicksism detected – quiet afn meeting – pretty large evg meeting of young people of every class including Hicksites, when the subject of "evidence" arose with power. In a little circle at Jos Kimber's we ended the day in great peace
