De Pusey's London Grove Pa. 11mo. 23d. 1838.

I may gratefully acknowledge that the desires above expressed have been graciously answered — we have passed some interesting days; & our way has been wonderfully opened for laboring among the Hicksites. On First day large meetings were held in the houses of Meeting Houses which they occupy at Little Britain & Eastland — on 4th day morng we left J. Ballance's in peace — & ~~[illegible]~~ after a long ride ~~[illegible]~~ the afternoon held a large meeting with Friends, Hicksites & others at East Nottingham in the M. House — then went to David Griscom's where a very blessed meeting was held in the evening. Yesterday we came hither 14 miles early in the morning (I on horseback — verifying as above) & attended the select Qu. meeting at London Grove — Sarah Bettle acceptably there. Spent a quiet afn. at this pleasant country residence — drank tea with the widow Edith Lloyd. The night has been one of no small conflict. Lord ~~[illegible]~~ grant — grant me grace to pursue the path of required duty with holy ~~[illegible]~~.

New York 5th day 12mo 7. 1838.

The Qu. meeting at London Grove was a good one — a truly favoured meeting for worship accd to my apprehension, but a most cold unsatisfactory interview made afterwards which cost me more of disquietude of feeling than I appeared in myself. But the quieting power of the Lord was at last to lead & help. Dined at Thos Lamborn's — there met Enoch Lewis & his wife — lodged at Isaac Hopper's — a letter repeating me I enjoyed — but was kindly received — & forwarded on 7th day morng, to the Rail Road Car at Newark — I reached Baltimore a little aftn. Here a warm welcome awaited me — we had a pleasant evening party at Joseph King's — First day was quite interesting Both the usual meetings being well attended & much favoured — a strong check put upon every thing which would stray from the genuine spiritual views of Friends. An analogous subject again before me in the large public meeting at the Baptist House in the Evgn. — a precious farewell at Dr. Thomas's afterwards. On second day in last week to Philadelphia by Rail Road & Steamboat. The return to my home there was attended by a delightful flow of peace which very much cautioned during the week — filled up as it was with very pleasant intercourse with my many warm-hearted friends — attended the meetings in course. Last First day much favoured. A large solid meeting at the North meeting in the morning — new house — the Robsons with me quite satisfactorily — & afterwards a good private conversation with them — so that so far we have a strong good understanding — A very open meeting at Orange St. in the aftn. Sam, Wm & E, J. — absent —
