a severe sneezing night has left me a little weak & restless this morning. It is my earnest desire to be rightly guided as to an hair's breadth in reference to the said pamphlet. May the Lord enable me to do the wise, right, & of needful, bold thing, in the matter!

Second day afn. 3 mo 12th.

Yesterday we had a large precious meeting in which the Doctrine of the Light of Christ as held & spread in the scriptural & legitimate view of the subject, was fully declared. Matlock Bath & family were with us. In the afn. I placed my pamphlet in Henry's hands for publication with my name & afterwards felt clear easy & peaceful. Last night was not a very good one - & ~~afterwards~~; but the day has been passed quietly within doors - I have this afn. been again brought powerfully to desire & pray that if this extra concern of mine be not of the Lord, it may be stayed in its course; but if of the Lord, that it may go forward - & in the latter view I am again permitted to feel peace. O! I would not break or lose the golden thread which was done bring me safely thro' this labyrinth of tears; for all the fame, the honour, the riches, the adulation of this fallen world. Lord be, before me I most ardently beseech thee to have my portion (deeply unworthy as I am) in the language - "We have the mind of Christ!" Having that mind, & being sure of it, I think I can bear the consequences. Lord, give me more faith - more conquering faith in thy own eternal wisdom & power!

Third day afn. 3 mo 24.

The weather today is exquisitely fine - & I have been taking with J. K. a ride of 15 miles to Mt. Misery & the Alley very sweet country - a feverish feeling this afn. is a little trying - but I believe the Lord is graciously with me in body & in soul. I desire to commend myself to Him.
