a favored Sabbath. In the morning call on the Messrs Brs. Rutherfurd & Porter. Large harmonious meeting at Methodist house stalled. "The teaching fulfil 2 the Spirit." Spiritual religion declared to be intellectual & called calling heated audience: so that I was forcibly reminded of dear Rept. Shillitoe's prediction that the "fruitfulness of the Lord would be found in the W. Indies." Afterwards called on Dr Clapham Sick and dying with the fever. Very interesting communication with him on slavery. Read or looked thro Barton's "Remedy" in the Spr. evening & somewhat strengthened. After a sound sleep went to the Moravian chapel which was filled to excess ~~many hundreds~~ great numbers about the house. We had I believe a good meeting. "I am the Way, the truth, & the Life." This meeting confirmed the impressions made on my mind by the morning meeting, & left me tired, but quite easy in mind. This morning we have enjoyed interesting seasons, with the Turnbulls at the Governor's — with the lively intelligent children at the Moravian school, with Dr Burt & his wife; & finally with a company of sailors on the sea shore. We are now embarked for Antigua (probably may call at Montserrat). I have been drawing Sr. Kitts & Nevis, & it is a very great favor that we are all three favored with good health, & easy minds. Our Captain must be better.

O that the faithful mercies of my God, may we meet with suitable returns

in my heart of gratitude, allegiance, & humble steady filial confidence!

Sr. Johns

Antigua 1mo 1/16. Fifth day. After a favorable voyage of 2 days & nights, we landed here yesterday morning — & found comfortable quarters at Mrs Appleby's. We have renewed cause for humble gratitude for the protection & overshadowing of our Lord. Soon after our arrival I found the way open with James Cox, the exemplary Methodist minister, for a public meeting in the evening — at their usual time. A large number of persons attended; & I think it was a quiet, satisfactory meeting. "Examine yourselves, prove your ownselves." I feel a great desire that in these successive services, I may be preserved in the true Quaker Ground — & that I may be graciously favored with yet more of the true anointing. This morning, after our time of prayer followed our morning reading, in our retirement in my own chamber. Kind calls from James Gordon once of Rankin & Arctic Dans.

Sr. John's 1mo 25. 1840

The twenty days already spent on this island have been interesting & important to our souls. I hope to others. 5th day 17. Meeting with Conception
