of that colony. Still ordered to rest this morning — & hearing unfavorable accounts of St Domingo & Barbadoes, we are brought into abeyance — I know of nothing to be done but quietly to submit — & see how matters work — "He that believeth maketh not haste". I do most heartily desire to bind the sacrifice with venewedly, with cords to the horns of the Lord's altar — & just to perform the Great Master's will — in his own way & time. "O send forth thy light & thy truth — Let them guide me — Show me thy way O Lord, — make thy way straight before my face".—

Domenica 1st day morg 2nd of 12

Finding myself much recovered on 4th day morning, I fell to work again — visited the Jail & House of Correction & held little meetings in each, with Ch. Justice Norton, the Marshall Dr. Wood &c. — Then the endowed Gr. school — Then the Moravians & their school — pleasant & satisfactory interview — then Sir Rolf & his collection of fossils — after an early dinner to the Sol-Gen Robt Hansford's at Delutts — a pleasant call — & in the evening a long letter call from Lt Colebrooke — & further documents to look over. On 5th day morg sailed for this island, which after a rough, rain-sick but blessed favorable voyage, we reached, & lay at anchor on 6th day

night — & landed before breakfast yesterday morg — Comfortably housed & boarded at Marie Delg Dallyrymple's — a Methodist matter — found some interesting young colored brethren here, Charles Nolan & Louis Ballot — & others with whom we took sweet counsel in the truth enjoying a precious solemnity after breakfast — (the regular ministers dined at Mr Lafrence at Mr Hitt's) Called on Major Gen Fa Hall the Govr — & then at noon mounted with the said young energetic friends & rode about the luxuriant romantic country, until night we took us — Bruce Hill, Coffehall, Prosper Hill. In the evening spent a very agreable hour or two at the Governor's. Rollin can well expect the beauty of this island, but both approaching it by sea, & in the interior. Nature is here fertility embodied — & freedom is working admirably — notwithstanding the obstructions to improvement in some matters, by self will & old prejudices. The whole day was altogether too exciting & interesting — & my night was one of restlessness & discomfort — Meetings appd. for morg & eve of this day at the Methodist Hum. The population chiefly French & R. Catholic — conversions is not likely to furnish large ones — but Mighty trust, the Saviour is & will be with us & that we shall be favored with an adequate portion of the blessed influence of his Holy Spirit

Bonsoir Monsieur — adieu Maestro!
