Roseau 5th day 2mo 6. 1840

We passed a good Nights time low Sabbath-
may quietly meeting with the usual engagements
of mind to in the morning. A large
promiscuous public meeting in the evening -
Spoke very present - Yesterday we visited
a Negro field
a Negro Hospital: Second day Rode excursion to
Guava; Second day, & La Soufrière
a horseback - many hours - returned by boat.
3d day. Drew up my anti-slavery report -
Dined at Governor's - Good meeting at his house
Lies in the evg - Paul's conversion.
4th day Passed "Church" schools visited.
Solemn meeting in the Methodist chapel
at night - night of indisposition. Several
family visits paid here - in the course
of the week. I am much at my wits
end as to the course which we ought to
pursue. - I & am weak & low enough.
O Lord condescend we implore thee to
make thy way straight before my face.

Sixth day morng 2mo. 7.

It is with a degree of quietness & settlement
of mind, that I propose to sail for
St Thomas this morning - there to catch
my letters - & then to proceed to Jamaica.
I consider it an unspeakable favor not to be
left in a state of doubt & perplexity - a favor

which I deserve not - & for which I desire
to be adequately thankful. There is I suppose a
disappointment to the natural feelings in not
going forward - but when Paul attempted
to go into Bithynia, the Spirit suffered him not -
so I think it will be in the present case,
as in former instances during this pilgrimage.

Santa Cruz 2mo. 16. 1840.

Strange to say, here we are in quietness &
comfort, as to outward things, & in a good degree
so mentally, at our old quarters - we left
Dominica in peace on 6th day after the above
entry - & after three days beat (for the wind
became contrary - to our disappointment) caught
a distant sight of land. The next morning
we found ourselves between St Thomas &
Santa Cruz & could not hesitate to come
hither to meet our friends. We arrived on
Third day & met with a most cordial
welcome from all our friends. We have since
visited the Beach, Hettersons, Farrington &
Scarffe families, & have had remarkable
religious opportunities at each house - rode to Bay
& Bodkin hill - & are preserved in health notwith-
standing a most thorough wetting - magnificent view
of the Island - Saturday drove & walked, drove,
& evening with Co & Whitmore - Got on
board Captain to St Thomas - He has brought us no
letters - & we have sniped the steamer
for Jamaica
