Grace Blundell's boarding House
Kingston Jamaica First Day
Eve. 3mo 1.

Our voyage continued with alternations of pleasure & discomfort - until 4th day morng - the last day along the highly beautiful coast of Jamaica - we then landed here in safety & were warmly greeted by John & Maria Candler & their friends Chas Lakes & Wm Anderson of the Legislature - they had prepared very comfortable lodgings for us here. A bundle of letters met me here - very satisfactory ones from home - the state of things from Phila. - rather worse which has brought me into some painful exercise of mind - but "I trust I have a good conscience": & must quietly leave the result to the Lord. These letters, with the heat warmth & enthusiasm & exp-current acts of the Colony, have somewhat overdone me - but we spent two good evenings 6th & 7th with several kind people at McCandlis

Yesterday afton visits to the House of Correction & County Jail - bad & insufficient prisons, the latter particularly, but the meeting held there were blessed

good times - especially in the open yard of the Jail - blessing have afterwards with Wm & Mary Anderson. To day we have been favoured with two very large meetings about 3000 each Some Dr Dutton's Baptist House in the morng - an almost entirely black congregation - & a very promiscuous one at the Wesley Meetg Hse. this afton - I hope I believe that our Divine Helper & Master was with us on these occasions. I felt enabled to speak very plainly to the Black people in the morng - "The Lord will give grace & glory &c". & the afton "The voice of one crying in the wilderness &c". I had to set forth the Saviour Remedy for all man's obliquities. In both meetgs the people were solid & attentive - very quiet in the times of silence. Eve at McCandlis & retiring to rest, I feel very weak & poor spiritually - & as if I had but little participation in the things which I have been proclaiming: but I believe we have cause for gratitude, trust & hope. Adorat Deus!
