& Friends were gathered together in much solemnity, & I hope a serious impression has been made on all our minds. In the evening there was again every prospect of a tempest but the weather cleared. It was very pleasant to arrive safe in the American shores in safety, & we are I believe permitted to reap the reward of peace. I find myself quite happy in my quiet bed-chamber opposite to a grove of trees in the Square; & certainly feel much more fit for such exercises here for such a scene as the Yearly Mtg in Philadelphia.

Savannah First day morng 4mo/26.

It seldom happens that my lot is cast any where in this pilgrimage without an attendant exercise of faith & patience. Such has been the case here. Such has been the case here from different causes. First from evil reports spread of me in reference to antislavery agitation; in consequence of which we found it necessary, under Henry Warring's advice, to suspend our intended public, one evening, of a public meeting. With a little quietness & patience however our way did open, & we were favoured with a quiet, relieving public meeting, in the Episcopalian chapel (used for various purposes) last 6th day Eve. I think we are in good ~~st~~ liking with the principal inhabitants of the place — o

the riding & driving, in this country of bland dispelling air, pine woods, & many flowers, with daily bathing in cold water, has been useful & refreshing to my body. Now I am under somewhat close exercise of mind (amounting during the past night to affliction) in consequence of a letter from T. E. detailing some adverse proceedings of their Meeting for Sufferings at Philad. But weak & trembling as I am, I believe through infinite mercy, I am not destitute of divine support — & feel a degree of precious quietness spread over me. We have had good Scripture Readings in ~~our~~ two houses of the Country here. We are looking forward to a public meeting this afternoon. Grace, mercy, & peace be with us.

Washington Fourth day Eve. 5mo/6 1840

It is under feelings of much peace & thankfulness that I find a quiet settlement here this night — after a safe journey by sea land & river of 62 650 miles from Savannah, propelled the whole way by steam. I am also well in health. How abundant O Lord are thy mercies! — praised be thy holy name! The meeting held at Savannah on the afn. of the last entry, was very large & satisfactory — in the Episcopal Methodist House — about 2000 — made of the gentry of the town. I had to proclaim indeed
