

29th June, I have ^{been} so much indisposed
since last Sunday, as to prevent my
writing, owing to taking cold by
sitting in the night Air when very
Hot, my Face & Head have been very
much Swell'd & inflam'd, attended with
extream Pain; Bleeding, Mustard Plas-
ters and Medicine have thank God
removed the complaint & I am now
in a fair way of recovery —

John & Harry have been busy
Mowing & curing part of Grass in the
Meadow which was much mix'd with
Clover & will finish hauling it in
to Day, it is remarkably fine sweet
Hay & the Crop heavy —

The weather has been tolerably cool
this week, but very Dry, Rain is
very much wanted —

30th June, Sunday — Feel very much
better & my strength recovering fast.
The Day very fine & pleasant,
Mr. Galt & Mr. Stewart came out &
dined with us, Mr. Harris & Mr. Bowly
call'd to see us at 1 O'clock on
their way to Mr. Stenatts to Dinner.
W. Bowly & D. Ridgely came over
from Finley in the evening, drank
Tea & return'd —

1st July — A fine day, well enough
to go to Town & return'd to Dinner,
began reaping Rye in Orchard &
Oats at Promontines, both very
fine Crops, but the Clover sown
in Spring is dying for want of
Rain, as are all our vegetables —
