

2nd July - A dry Hot Day, went to
Town & returned to Dinner, finished
cutting Rye in Orchard, it is a very
good crop, the Sainfoin is not come
up, which I attribute to the extraordi-
nary dry Season, the Clover I fear
will die unless we soon have Rain.

3rd A very Hot day without any
appearance of Rain, went to
Town & dined at Evans's, came
home immediately after, finished
cradling Oats at Fromentines, the
Clover sown with them in the Spring
is all dying for want of Rain,
of which there is no appearance,
as also are all the Vegetables,
Timothy Grass &c. &c.

4th July, A very dry Hot Day, did
not go to Town, three Mowers cut
down all the Timothy in old mea-
dow, which turns out a much
better crop than I expected consi-
dering the dry Season, no appear-
ance of Rain this evening.

5 July, A very Hot Day, Therma-
-meter 90 at Waltham, went to
Town & returned to Dinner, very busy
mowing & making Hay.

Hauled up & stacked the Rye
in Orchard, in very good Order.

No appearance of Rain, the ground
is excessively dry & hard, all vege-
-tation at a complete stand.
