Allen expects to retire from teaching
to rest - she is not well - she would
make a good matron if she accepts it.
If we only pay $50 to the Female
Teachers, I will send them $150,
being the balance of the $300 I
promised, for your general fund.
Allen visits Fem.e twice a year,
I will see he does so at our expense, as long as we keep him.
I will see that Allen sends them
the probable cost of teachers.
As to Dr Ellis I believe he is a
worthy man & a useful friend.
I will ask a Jay who knows
more of him. For two years after
we began our work in N.C we
were over run with such applications - & had to refuse all - if
you begin it you will have the
same experience I fear - this
however seems to be a special
case & I know that in north
East Fem.e such cases were made
at numerous rates. There are first
rate lawyers at Greenville the
County town who would make
examinations at small cost.
We have helped Dr Barton & a few
friends in special cases when
whom meetings somewhat pitted
as this may be such a case I
think we could contribute $200
as a gift, & let the $1200 be advanced in other ways as a loan
on the land.
I will write Allen & let thee know
soon as to the merits of the case.
In the meantime then can
write Dr Blanchard then will
give an answer in ten days.
I may have been slow towards
N.C. friends in the way of help
outside of Ed.n & agri - but it has
worked well - they soon understood
me & ask.d me were right.
Excuse my haste. affly Friend
