Dear friend
Thine of 19th at hand & noted. As thy letter asking for grants was mislaid by one of our committe it is possible that we are mis-taken, but I feel quite sure that thou mentioned only Bethel & Hopewell Springs, & we divided our funds on this basis. There will be a few odd dollars & some little interest to the date of last payment, so we will send thee that for the third school.

Dear friend
We have a request for aid from North Branch Pres. Mtg, where a frame house 24 X 32 is being erected. Dost thou consider them deserving of assistance, or as much as as others? Our funds are very low, & we want the money to go where it will do the most good.
