The Committee yesterday appointed brought in the following report

"To the Yearly Meting now sitting"

"We the Committee appointed to unite with the committee con-
" tinued at last Yearly Meting, to take into consideration the circum-
" stance of the lot of Ground purchased in Baltimore agree to
" Report

"That we have had a conference on the subject & it
" appears to be the concurring Sentiment of the committee that the
" said Lot be disposed of to the best advantage by the com-
" mittee heretofore appointed, & the money arising thereon to
" be laid out towards the purchase of another, if a suitable
" one should offer in some other part of the City, provided they
" should be of opinion that it would give more general satisfaction
"Otherwise the money to be made the best use of until our next
" Yearly Meting, when a further direction may take place res-
" pecting it, Or if Friends in the City should conclude to pur-
" chase off the ground rent to which the said lot is subjected &
" erect a Meeting house thereon for their accommodation (or on
" another lot if purchased) in that case we are free that the
" money advanced by this Meting & that already subscribed
" towards the purchase remain to assist them therein & if it
" should be necessary at any time hereafter to be occupied by
" the Yearly Meting, that that Priveledge be reserved in conse-
" quence of the said money advanced, without being at any further
" expence in either case at this time. ——

"Signed on behalf of the Committee

"10th M. 12th 1797 —

"Isaac Webster
"Benjamin Walker
"Abel Walker) "

Which is approved by the meting, & the former com-
mittee continued to extend the necessary care, & report to the Mee-
ting next year: the Quarterly Metings are desired to forward
to Joseph Townsend treasurer of the Committee as soon as
convenient, the money already subscribed towards the purchase

of the Lot and building a house thereon". ——

Essays of Epistles to the Yearly Meetings held in London, Philadelphia, Virginia & North Carolina were read, approved & signed; & directed to be transcribed & forwarded.

Having been enabled to transact the business that has been brought before us in a good degree of harmony & brotherly condescension, under thankful impressions for the favours at this season communicated the meeting adjourns to the usual time next year. ——
