The following summary of answers to the Queries as drawn up in the reports from the several quarterly meetings were at this season brought into view.

Answer 1st. Our meetings for worship and discipline have all been held, two meetings are noted in one account to be nearly dropped, and stated to be under care, those on the first day of the week duly attended by many friends. Complaint of deficiency respecting the attendance of those called week days is noted in each report. The hour nearly observed. No unbecoming behaviour remarked, except instances of giving way to drowsiness, on account of which some care has been taken.

2. Many friends are concerned to maintain love & unity, to discourage tale-bearing, back-biting, and spreading evil reports; and, where differences have been apparent, it appears that endeavours have been generally used to end them.

3rd. Many friends are concerned to bring up those under their direction to the attendance of meetings - to plainness of speech, behaviour and apparel, to encourage their reading the holy scriptures, restraining them from reading pernicious books, and from the corrupt conversation of the world. - Yet a more general care in these respects, is noted in each account to be necessary.

4th. It appears that friends are mostly careful to live within the bounds of their circumstances, to avoid involving themselves in business beyond their ability to manage, and to observe justice and punctuality - tho' instances of deficiencies are noted in each of these respects - on account of which some care has been extended.

5th. It appears that friends are mostly careful to support our testimonies against an hireling ministry, Oaths, military services, clandestine trade, spirituous goods and lotteries.
