A report from the committee on Indian concerns was produced, which being read and considered, much satisfaction with the proceedings of the committee was expressed, inasmuch as it very evidently appeared, that considerable benefits have already resulted to our Indian brethren since the commencement of the care of the Yearly Meeting towards them. The committee were encouraged to continue such exertions in the prosecution of this important concern, as may be in their power to extend. And our subordinate meetings were affectionately desired to be liberal in their contributions and forward their collections from time to time, to the treasurer of the committee, so that the necessary means may be furnished in order to the further prosecution of the concern. The committee were also left at liberty to have printed, for the more general information of friends, as many copies of their report, connected with a narrative of their previous proceedings, as they apprehend may be usefully distributed amongst our members, and directed to call upon the treasurer for the expence incurred. Jonathan Jessop, Jesse Hughes, Caleb Kirk, and John Cleaver were now added to the committee. *
