

Dollars and the Female Teacher Two hundred & fifty dollars per Annum.

The Committee further state that there has been received since last year the sum of four hundred & Twenty five dollars from the original subscribers and of the sum of Twenty one hundred dollars directed to be raised by the last Yearly Meeting there has been received only seven hundred and Ten dollars and forty cents - in the following proportions from Baltimore Quarter Four hundred and Thirty six dollars and forty cents - from Warrington sixteen dollars - from Fairfax Two hundred and forty dollars and fifty cents - and from Nottingham seventeen dollars and fifty cents, making in the whole the amount of the sums received by the Treasurer Eleven Hundred & Thirty five dollars and forty cents - which has been all expended and there remains due by the Yearly Meeting on account of the Buildings, Improvement & Furniture the sum of six hundred & thirty eight dollars, and for the expenses of the school a sum exceeding four hundred dollars.

The Interest and reputation of Society require the payment of these debts - and the Committee have no prospect at present of being able to procure the necessary funds. They feel little confidence in looking to the original subscriptions for any immediate or adequate supply, and the small sum raised from the members of society in pursuance of the acquisition made last year is truly discouraging. It is therefore with much reluctance that the Committee feel bound to make the suggestion that they see no other means of effecting the object than by making a Loan on account of the Yearly Meeting or of admitting into the school under suitable restrictions scholars who are not in membership with us - in the latter case it is believed the school would soon be filled - when the receipts would so far exceed the expenditures as not only to support the Institution, but pay the debt now due by the school.

By order of the Committee
