"The Committee on Indian Concerns Report, that during

" the past year, no way has appeared to open for any
 " active operations on the part of friends of this Yearly Meeting
 " in regard to the renewal of our efforts for the melioration
 " of the condition of the Indian Natives. From the infor-
 " mation, which has been received it appears that the Indians

 " Mississippi have become very much dispersed: - a portion
 " of them having in a great measure abandoned agriculture
 " for a support, and wandered as far west as the Rocky
 " Mountains on long hunting expeditions, and some of
 " the others have removed south within the Mexican
 " Territory. - It also appears that these people have since
 " their removal become much dispersed over a wide range
 " of country, and that it will for some time to come
 " be difficult to maintain a regular intercourse with them.
