

8-20 We meet again as usual and though our number is small we have a good lesson & are trying to keep our minds stayed on him who giveth peace. An invitation is received from the county organizer for us to send delegates to a meeting to be held at Edmestown to organize a County Sabbath School Association and Samuel D. Eves and George W. Fisher are appointed to attend. A subject for discussion at our approaching Firstday School Association being under consideration and not being able to determine from the what to select it is left with the L. and secretary.

8-27 A fine clear day with cool wind. I report to our approaching Firstday School Association is prepared & directed to be signed and presented to that body. As our delegates we appoint Margaretta Way.

Verna M. Way, Elizabeth Waite, Sara H. Way, Lydia R. W., Lydia Lucretia Way, and Gilbert Waite.

9-10 Last Firstday being our Quarter Meeting there was no firstday school. Our delegates all attended the association on 7th day except Wm.

We had a very good association. The children & young people had very good declamation. Two of them being very good answers to the question for discussion which was as follows, - What dangers lie in the religious freedom possessed by friends? The discussion was very good, there being with us Barkley Spicer and Lukens Webster who had some talk on the subject as well as others of our own members.

Our lesson today is Total Abstinence and the class is Thine a very interesting lesson.

9-17 Very cool shower day & school small. All farmers are working very hard now to get their crops in and our numbers are small at best.
