Whereas through the Goodness & favour of the almighty Father & preserver of Men, which have been extended to me renewedly under Bodily Infirmary in the decline of my life, whereby I have been instructed, & assisted to adore his merciful compassion, and great loving kindness towards weak and fallible creatures, favouring me with fresh light to see the bewildered state which is brought on thro' a want of attention to our Holy Guide, and furnishing even the disobedient with a ability freely to submit to the operation of his Holy Power, which subverts the will of the creature, purgeth out the dross of nature, and perfects the work of sanctification.
