

The Trustees of the "Miss White Beneficial Society," produced a Report, which bore a warm expression of approval of the manner in which the funds of the Trust have been distributed the past year.

A Minute was read from New England Yearly Meeting, transmuting an appeal of much interest from Theophilus Waldermar, of the Meeting of Friends at Mount Lebanon, Syria, on behalf of the Mission Schools there. The subject claimed our sympathy and interest, and the Minute and appeal, were referred to our standing Committee on Foreign Missions.

The following satisfactory Report, was received from the Committee on Home Missions, and the Committee was encouraged, and encouraged to labor in the various fields opened to them.

"Report on Home Missions"

Although we have not had Reports, from as many of our Subordinate Meetings as we could desire, we are glad to find, that in many localities, the work has grown more extensive, and more of our members are engaged in it. We have received written accounts, from only six of our Subordinate Meetings, and in one of these the work has been much hindered, by severe and

continued illness in the families, must act in the work hitherto; our statistics show the number engaged to be about 85. Social Religious Meetings, are generally reported as held among our Friends, and we find that several persons, have joined our Society, through the efforts of Home Mission Workers.

The Central Hill Mission, an independent church organization, growing out of Home Mission work in Baltimore, and numbering about 60 members, who agree with Friends, views on Baptism and such distinctive doctrines, is in a flourishing condition. A fine new building for meeting and school purposes is being built by the liberality of Baltimore Friends, on the lot owned by them, and we look forward to increased zeal and activity in the work, when such excellent, permanent accommodations have been secured. A very general interest in the cause of Temperance, is a marked feature of our work, Friends desiring to realize, how very important a branch it is, and the results are, in many instances very encouraging. The Committee is as follows, "Baltimore" - Richard H. Thomas, John R. Carey, Mary W. Thomas. "Derby" - Isaac Thompson & Fanny Marie. "Hempstead" - John Griffith, M. A. Griffith.
