this meeting -  
The condition of the various meetings having been considered, the need was urged for consecration of all to the work of the Church. We must go to the work of Christ in His name and for love of Him who is our Savior and Shepherd and King - Not in our own strength but in the strength of our King - Not when it suits our convenience but when we are called to sacrifice; utterly given up to Him to be, do and go as He says. To be then well consecrated, his service this night and the Lord's service is the question each must put to our selves - A time of prayer and personal consecration to the work for the coming year the meeting adjourned
