

Month - Robert Ward and wife are taking a great interest in this meeting and in visiting the members of it -

It was concluded by the Committee that it would be desirable to have notices of our various meetings put up in the different Medical Schools of the City as already a number of the students of these schools attend our P^r Day Evening Meetings

May S Thomas stated that she, Annie S. Stabler, Clarissa J. Davis and Louisa J. Brooke visited Richmond Meeting as intended and held three appointed meetings there besides attending the regular ones.

May S Thomas stated that she had visited Providence during the past month and had had an interesting occasion with the members of our Society there and those associated with them.

Several of these friends expect to attend our approaching Early Meeting - Their regular meetings on P^r Days have been kept up -

After a time of waiting on the Lord the Committee adjourned.
