Dear friend

We have de-
layed doing any thing in the
way of engaging teachers, un-
til we had our Sept.

We today appointed for a month
to establish schools - the regular
app't will be made of ten-
nards - He goes down in two
weeks. I think we shall
be able to give thee a school
then, so that thou can
go South with him.

I will write thee again
to let thee know -
