

not upon a regular normal lecture without
having to borrow the pupils - moreover in should
be afraid to present to us the expense of
books, trunks, hand spectacles &c, until we
have a further advance. The fact they proposition
to be a very important one, & don't wish the
to lose sight of it, as the primary objects get
faintly under way, then can select pupils
for the normal school - now we need the
teachers for the work, & the pupils are not
as enough advanced.

Then enquires about Irish day schools - in
which to encourage them & render them more
acutely all the aid we can. We would
like them to visit them & add to the school
and teachers as may may open for it. These
reports would report separately from the
others, yet as often as them can. We need
a large lot of sheets & there are 1300 in
Greenwich for the school & the Bible &
Tract Society - we would wish through
them as much as possible - as it will bring
them in number with us as far as possible & enlarge
the operation of these donations.

The are exceedingly anxious to see our No. 1
hundred such as the improved records & family
book to have complete in various ways - such
as raising vegetables for market &c &c.
