

John Skates

Dear Friend.

Ball: 1 mo 8. 1866.

We think there has better price the
revenue attraction to the putting up of the Stones
as they do not much use them in N.C. The price
has almost be closed up as the miners give
best example. If you need more paper write us
or buy it in Greensboro. The two large ones are for
the large behind Rums & the smaller one for the
skinning room, or any other room that needs it
more, we can send another quantity.

Caution them opposite throwing in heavy run
they will soon knock a stone to pieces.

We receive diet of Quacks sent by Phila 12th 4th 1866,
for distribution. There are also 11 cases by some
with for dark honey delicious - she will write
about them. She is to establish some dispensary.

We also send list of dry fruits which them have
in boxes - they were bought to supply Quack

the Delaware & two other families who are in want.
They propose to pay for them we do not think
they are able. There is thought to that meeting
and what is wanted for delicious & that they do
not suffer for clothing & food this winter. There
stand to this immediately. He could not stand
that side - then better go alone - he can work
wherever in the mean time. He practices Whisper!
