

Allen M. Tinklenow

Dear Friend

Baltimore N. 17. 66

I have been thinking ever
before, that would be without the reach of the
young people of the free meetings of Deep River,
Springfield, Centre, Marlboro, & other springs,
that would be near enough to the place, in
case you ever returned the country meeting
have their quarters to some point that would
be more suitable reach of the main body of
friends. I do not think that any thing will
come of the project, yet it is worth considering.
Please inform me what the average value
of farming land with you is -

Please send a description of the 400 acres
thou spoke of - How far is it from the
meeting house & how a laid head & tail
of it perfectly healthy - well watered with
never failing springs or streams, & is the
land naturally rich. What are the buildings.
Are there any other places better situated,
more ~~convenient~~ at a larger land & not so large.
Please not speak of this, as nothing may
come of it - the difficulty being we should have
to raise the money outside of our present ad-
vocate funds.
With love to you all - My D^r A. J. King
