

I have been thinking of the future of the young. Let
 them be as long as they can, and as long as they can, let
 it be as long as they can, that as they are as
 many as it would be better for him to
 have a smaller place and hope he will as con-
 sider it.

If these arrangements can be carried out
 we will be able to hold a house with money &
 put a family in each house to drive things
 up.

These will be as early as they can
 as the house is a dream.

After My Friend
 Wm. J. J. J.

I have written to you with confidence
 as I think it best than a house of a house
 to be as about it - while it is standing.

I have been thinking of the future of the young. Let
 them be as long as they can, and as long as they can, let
 it be as long as they can, that as they are as
 many as it would be better for him to
 have a smaller place and hope he will as con-
 sider it.
