now 2 cows for the money,
 these prices generally are
 for under.

I will look out for a carriage
 as few ours are too tight
 for your rough roads.

I will send the dirt-scraper.
 In my expenditures please
 be careful to keep the various
 items & disbursements separate
 so that we can group them
 easily in the statements.
 My movement continues to
 look very pleasant to me
 & to feel that you are all
 in your right places, & I
 earnestly desire that the
 Lord's blessing may be upon
 you & your labors.

Remember me to all

My friends,

I read one letter from thee with
 subscribers to the Agri paper. with
 there be more of them.

Balt 11/27. 1867

Wm A. Sampson.

Dear friend

Thy letter recd

Today at noon.

I cannot answer thy queries
 fully about the excavation,
 timber, boards as until we
 can't see the plan of the Barn
 which we have been waiting
 for. I promised as thou may
 remember to have an archi-
 tect make the detailed drawing.

Thou & I alone conferred upon
 the subject & as it is an im-
 portant step to present a model
 & a costly outlay too, I want
 to put the responsibility upon
 one Ex Com^{tee} rather than on us
 two alone - in which I am
 sure thou wilt agree.

The plan of the Barn will
 determine the excavation,
 timber &c.
