

drawing that we may know where you
propose to put the beam - marking
the old house & its opening as a guiding
point for us.

I will attend to this Clerk de Row.

who be very careful about collection
of timber &c. Allen will know what
woods stand best with them - for in-
side timberlands well. It is different
from us. I fear their stone well in
granularity & cost & appearance of dry bricks.
Every thing here is falling & necessary

is as dense as human hair.

There will be many failures this
winter from a lack of falling & the in-
ability to collect on the month's
work on credit, depending on the
condition of the crops.

Then can we the Key learn of
 Heaven's purposes?

Heath near Beacon at the Brook to get
some amount of berries.

My friend
