I have been very much
desirous to get off to Canada & to
the Indian Com^{tee} - my hand has
been out & then will express
the writing.

I send two letters from a dear
friend in Tenn^{ee} - they may interest
you - I wish to go there this
winter - I hope to see a party
going there some day. a great
work is going on there.

My love to John & Alice Prim -
tell them the papers are being
put up & will be shipped on
my return 3 weeks hence.
I wish I had time to go into the
detail of your appropriation, the
history of each application is
full of interest.

I will write upon my return -
Love to you all very warmly
