him among the Indians this winter
 & we must strain a point to get
 him at Springfield. The assn will
 contribute \$100 towards his exp.
 if the neighbors make up the
 balance. Don't let it be known
 at other places. He must help
 the new school at Leary & a
 few other small points & with
 his salary we can work out
 without begging. We must then
 push the others upon their
 own resources as to means - they
 have a good crop, & now or never.
 I am near the assn on that
 platform. We may find a few
 individual cases in all the schools
 to whom a little aid can be given.
 but they must be helped gently.
 If they don't need it & I am
 in account of thy health, I prefer
 not to use him as an asset - but
 as a teacher at So. He must have
 a model there always.
 I hope they can manage that best.
 The Peace assn meets at Ind.
 but I don't expect to go. I
 presume Dr. Nicholas will take
 it on his way to Kansas.

Dear Allen (Jay)
 I will answer thy queries
 in order briefly & then generalize.
 1. I would decline to go West on
 a begging trip, for no good a pur-
 pose - they will consider it a
 part of our work in spite of any
 thing to the contrary. Moreover
 Dr. Moore is on such an errand
 will follow his up - I have a
 letter recently from him - he is
 doing poorly - It won't pay to
 send one out - I thought they had
 the Mig House on hand. Western
 friends say that between Peace,
 Indians, Headman, & Co. & home
 calls they have their hands full.
 We have promised to ask no more
 & we can't mix up in it.
 2. As to W. A. S. we shall not need
