" " "	$8\frac{1}{2}$
" " "	"
No. of plants enclosed	88
as each plant	$50\frac{1}{2}$
attendance at rock school	$25\frac{3}{4}$

North	24.30
Maynard	7.00
Wentworth	20.00
is taken	1346. —
	<u>1397.50</u>

The teachers will receive about \$1.30 a week
from a small state fund in addition
to the above.
The students have been well attended &
the teachers have advanced rapidly. Despite
being in South & being so many miles from
anywhere it is in the country, many have
come - the Missions of the pupils - but
on the whole it is very encouraging & gratifying
to see the progress & great activity of the
population in Greenland - some have
started the first schools as a & starting
another, Brannum, Gray, &c - while others who
started in on students, now returning a letter
can now speak & read. I have had great
pleasure in the progress in the
work. The moral & religious instruction
is better than ever before & in most
schools the effect has been evident.
