

I have a month in trying to get the
 Com^{tee} in Phila, a little hold, about
 \$4000 subscribed, by Eng^l & Phila friends
 for the benefit of No 2. I am doing
 do best, to make a trust similar
 to ours - they highly approve of our
 course & think they will do so but
 the sickness & absence of a part
 of their Com^{tee} has delayed them -
 I did not like to press it. I lost
 another month in waiting till
 I had to go to Phila, that I might
 see the atty & the Pres of the trust Co.
 In the meantime the money was
 with my Banker at 6 per cent but
 the original fund has been in-
 creased \$51.22. The accruing int^l
 from this date till the final ex-
 ecution of the trust will be paid
 as income.
 I might here add that I was en-
 gaged, with some other new di-
 rectors, for two days last week, in
 examining into the business & invest-
 ments of the Penn Life & Trust Co
 & found every thing to be most
 satisfactory - the management is
 able, economical & conscientious.
 They can make a copy of the trust &

to \$800 in 1870.
