[illegible] 9/30. 71

Dear Dr Tomlinson

I have just ret^d from a trip with the Indians, & go off to a distant [illegible] in the morning, but must send thee a plan for thy house that may aid thee some. I would strain a point so as not to have it too small. My family need, room & the children will grow to be men & women. If thou can make the figures thy inside measurement it will not cost much more, but thou must pledge that the asso will lend thee 1200 dolls for three years at 6% per ct interest, or payable sooner if thou can easily do so but that is not to be known. Thee can engage

[illegible] not [illegible] at $75 the [illegible] the same as [illegible], but I will give the [illegible] the [illegible] a few days. He can be hired on 3 mo at $75 per month.

+ In [illegible] Harris show the plan to Wm. S. & get his criticism as he has seen many [illegible] of houses.

~~The partition in the [illegible] chamber can be left out to give a larger room if it is too small.~~ [illegible] it should be painted [illegible] from the [illegible]

Much will depend on a pretty front —

afterwards said 4 mo at 75$ (See page 420)
