paid by strangers; & after so much was paid
to build the houses by natives friends shall
collected by Thee, they will damage themselves
sadly. it would grieve me beyond measure.
I will carry out just what I told thee I
would do. When thee draws for the Colored
schools - add $25 for the others school thee
wrote about. mark that draft col^d schools -
I paid $91 for life Ins^e for thee - all right.
I had a letter from Jno Hoover some time ago -
wished of talking to him at Y. Mtg. about his
affairs I arranged for thee to help him as far
as I could go. do what thee thinks I ought
to help him - I forget now what I told thee
whether it was to come out of the sum I
pledged myself for for N° C^a this year - thee
will remember. I am glad thee must take
a family in when you - thy good woman must be
spared. I have thought much about the Sampsons
& if Martha will look after & advise the children it
will relieve my mind much & do them good.
I will write Th^s. I will visit you as soon as I can,
probably 4 or 6 weeks hence - we will talk matters
over. Don't wear out or leave thy field this spring. I
want to see thee & talk over some changes & plans.
I am uneasy about our farm. Thine as ever Hannah
