

I will ask Jas. Moore to
state more fully what the
prospect for Guilford College
is; although I suppose
that is not yet history.

But, it might be well
to show the Builders over
that name.

I will make some further
investigation as to the Reports
of the Educational Com- ^{affairs}
by the Y. M.

In the mean time I thought
it best to send the two manuscripts
mentioned, as they together give a
pretty good history of this school,
which has been the center of
Friends' work in education.

Truly thy friend,
L. Lyndon Hobbs.
