308 WALNUT STREET.

Ans^d 17

Philadelphia 12 Mo. 15 1887

John C Thomas,

Dear Friend

I have thy letter of yesterday, and will endeavour to furnish the information asked for. It will necessarily be imperfect as we had schools in Virginia, and though the accounts could be separated, yet it would take more time than seems to be allowed. The right person to compile a History of Freedmen work does not seem to have turned up yet. I have lately been looking a little into the early minutes of our Association, and find them extremely interesting. Have you applied to New England? I do not know what they did in N. C., or whether it was all done through N. Y. There was a Freedmen's Association outside of Freedmen here. I Miller McKim was their agent. F R Hope was one of the active members. He could tell probably whether they did anything for education, and how to obtain the information.
