

of the association.

We were at Isaac Cox who gave me his note of hand for three hundred dollars which he had obtained from F. S. King, payable in two years clear of interest. He owns a large tract of land. I also met with Wm S Cox who had obtained from the same three hundred dollars who gave me his note payable in two years clear of interest. He owns some 700 acres of land.

I went to the house of John Moore who had also obtained three hundred dollars from F. S. King. I took his note for the same payable in two years without interest. He owns some 8 or 900 acres of land. Dr E Simnett was referred to me by F. S. King, who wanted to borrow one hundred dollars for one year after making some inquiry as to his circumstances. Though he is living on rented land. He owns 120 acres himself. but he has a good opportunity of making more on the rented farms than on his own. He is considered a worthy man. I concluded to let him have the amount he wanted who gave me his note with security payable in 12 mths from the 28th of this Mo. I wrote on to F. S. King to send on

the money by letter which was his request. which closed up all matters here which came to my knowledge. 17th On attempting to leave this neighborhood we found the rope at the ferry had given way. So we could not cross the river with the luggage, and as there was some uncertainty when it would be repaired. we concluded to go to the Railroad. and see if we could walk over it, we succeeded in crossing over on this bridge then we had three miles to walk to Goldsboro where we met with Thomas Pearson who belongs to S. A. M. Mtg. who took us home with him to his Mother's, where we spent the night. 18th Friday. After some difficulty in crossing Little river we succeeded in getting to S. A. M. Mtg. a little after it had gathered, we both were engaged in this meeting in our blessed Master's cause. after the close of the meeting ^{the attendance spent day school a few} we had an interview with part of the ~~monthly~~ Mtg. committee understanding from them, there was a school in operation some 3 1/2 or 4 miles from the Mtg. house. as there is no house near the Mtg. house. which would answer for to hold school in. we encouraged them to build a
