

Baltimore 11th Mo. 16th 1877

Dr J. D. Garner

Maryville Tenn.

Dear friend

Our Association desires to consider the work in Tennessee & appropriate to it some funds. Before doing so, they would like thee to send them a report of thy work for this year up to the present time, including receipts & payments, also a memorandum of what thou considers the most necessary things to be done, with the probable cost of each. If any report of last years operations was published we should be glad to have a copy of that also.

With all this information before it, the Association will be in a position to better understand the character of the work & its requirements.

Very truly

John C. Thomas

Secy of Balt. Assn.
