Dear friend

Francis T. King requests me to say that he has received thy letters and has deferred answering in hopes that more donations would come in for building meeting houses. As far however, only \$20.- has been received. We would like to know more particularly the estimated cost of the two meeting houses needed in your Monthly Meeting, separately, & how much can be raised by the members; also how far the new ^{ones} would be from the present meeting houses, & how many would probably attend each meeting. It is our rule, when we make grants towards building, not to pay the money until the roof is on.

thy friend
John C. Thomas
