W. W. Adams
My dear friend

not has been been laid
before our committee.
We are glad to hear of
the propriety of the school
& would like to promote it.
Our custom has been to do
this by paying the tuition
of certain deserving poor
students selected by some
from the mountain districts.
We would much prefer con-
tinuing this course another
year, unless there can suggest
some better way. Let us hear
from thee. Thy friend
