The 1st 2nd and 9th queries were read, and from the answers from our several monthly meetings the following summaries were taken and approved

1st Ans All our meetings for worship and discipline have been held (except one at the Clifton occasioned by indisposition) those on first day mornings, and those for discipline attended by the greater part of our members, our other meetings often small, unbecoming behaviour therein mostly avoided, and the hour nearly observed.

2nd Ans Many friends maintain love toward each other becoming our christian profession talebearing and detraction mostly discouraged, and when differences become known care is extended.

9th Ans Endeavours are used to deal with offenders agreeably to the tenor of the query.

No visit to Clifton meeting having been performed since last quarter by the friends set apart for that service they were continued The friends appointed to assist the Clerks to correct and record the minutes reported they had attended thereto
