

that a conference was held on 7th day evening. Subject - "Quakerism for young friends."

A very interesting & able paper was read by L. Hollingsworth Stodd of New York, and this was followed by a general discussion. For behalf of the Committee, A. Morris Casey.

Samuel R. Pease Lindley O. Clark. A. Morris Casey Louisa H. Brooke Anna & Staller & Sara H. Hoge were appointed to report to our next meeting a plan for holding a conference of workers at the time of our next Yearly Meeting if way opens.

Reports from the Monthly Meetings were read. Several Meetings report good attendance and interest with a good degree of spiritual life. Baltimore reports that the change of time of holding Monthly

meeting from morning to evening during winter & spring has resulted in increased attendance. Two speakers speak encouragingly of Bible School work - our Clerk having decided to more thoroughly organize them and hold before the meeting for worship instead of after as heretofore. Patuxent has omitted one meeting for worship on account of rain and absence of several members attending the last Quarterly Meeting. Washington reports discontinuance of 7th day evening meetings for the summer. One meeting speaks of being much blessed by careful reading & consideration of the queries.

The advisers were read & after a season of quiet waiting the Meeting concluded. Howard M. Boye Clerk.
