To Balto. Quarterly Meeting of

Dear Friends:

The Committee to encourage the exchange of visits between our Meetings has met twice since the last Quarterly Meeting and has arranged for three visits, two to Ashton and one to Washington.

Since our appointment a year ago, seventeen visits have been paid by members of the Quarterly Meeting to different Meetings within its borders; each Meeting having been visited at least once; and a week-end General Meeting has been held at Hopewell. We believe that these visits have been helpful and stimulating, and have increased the feeling of brotherliness and goodwill between our Meetings. About nine Friends, other than the members of the Committee have taken part in the visiting. Besides this, quite a number attended the week-end General Meeting at Hopewell. While we are glad for all who have united in this work, we feel that it is just here that the original aim of the Committee has not been realized as it might have been. We still need a larger number of Friends to offer their services to help other Meetings by visiting them.

Those who have done so have received a real uplift and strength and have realized for themselves that the saying is a true one "He that watereth others shall himself be watered."

The time for which the Committee was appointed having expired, we suggest that the Quarterly Meeting should continue the work, which is much needed, and that it should supply the funds necessary for carrying it on.

Signed on behalf of the Committee.

Harriet M. Thomas M.
