

Report of the 2^d M^y ~~conferred~~ to the 3^d M^y on the subject of select Schools.
The subject of select Schools for the guarded literary
education of our youth, has engaged ~~our~~ ^{the} careful and
particular attention ^{of our M^y Meetings}, in conformity with the directions of
the Yearly Meeting.

~~Our Friends appear to~~ ^{fully} appreciate the advantages that would be likely
to result from the establishment of select Schools amongst
~~them~~ and have ardently desired its accomplishment; & yet
~~their~~ ^{their} continued efforts to effect that object have proved
unavailing.

Some of our Members within the
last Year or two have placed their Children at West-Town
Haverford, & other Schools, some removals have also
occurred, & others are contemplated, hence under all the
circumstances attending our situation, we are very reluctantly
led to the conclusion, that it is impracticable for us
at present, to support ~~a~~ satisfactory select Schools
within our limits.

Two Schools within the limits of one of our Meetings
are taught by Members, & friends within its reach have
availed themselves of the opportunity thus presented. -
